Subject: **International Workshop on Energy Policy in Asia Pacific Region to be Scheduled in October 2013**

Dear Sir,

National Productivity Organization Pakistan, a nonprofit company fully owned by Government of Pakistan under ministry of Industries has established research and resource center for Energy and Environment Management (CEEM) with the support of our mother body Asian Productivity Organization (APO) Tokyo-Japan having 20 member countries.

Nowadays Pakistan is facing a serious energy crisis due to the alarming reduction of energy resources and increasing demand which has badly affected our all economic sectors especially industrial sector. No doubt, this situation has emerged globally, but it is a fact that energy crisis in our country, is due to orthodox processes, inadequate use of electrical and mechanical equipments, un effective Energy Policy and non compliance to standard inspection techniques which has resulted higher energy losses.

To cater the growing energy crisis, NPO Launched Energy Efficiency campaign to introduce the Energy Efficiency

- More than 250 Energy Audits have been conducted in Steel, Textile, Oil & Ghee, Fan industries with 5-15% savings opportunities on average and up to 38 % Energy saving opportunities in commercial buildings.
- NPO has trained about 800 work forces during these programs for energy efficiency.

PAKISTAN

CHIEF EXECUTIVE OFFICER

National Productivity Organization (NPO) intends to organize an international "Workshop on Energy Policy in Asia Pacific region" with the collaboration of APO in which Energy Experts from 20 Asian Countries will participate.

The objective of this workshop is to highlight the best practices of Energy policies in this region and share the success stories developed by APO member countries. It will also focus for development of road map to review and up gradation of Energy policy in Pakistan.

Being very important subject which will enable us to benchmark Pakistan's policy with other Asian countries under one roof and our energy policy maker will also be able to share best practices. It will be highly appreciable if you spare some of your precious time for presentation on overall NPO activities on Energy Efficiency and the subject captioned above.

We will be happy to hear from you soon.

With profound regards,

Khawaja MUHAMMAD Yousuf
